"BLOGPAD" CUSTOM WORDPRESS THEME
Summary: Took a Figma design and developed it into a functional site. Then converted that into a WordPress site creating a custom theme and plugins.
Tools Used: HTML, CSS, JavaScript, Bootstrap, PHP, WordPress

VENTI WEB DESIGN & DEVELOPMENT
Summary: Created a website to showcase my web development skills and promote my freelance business. Using PHP and a MySQL database I created my own CMS for publishing blogs and templating pages. Better understood SEO and implementing accessibility best practices.
Tools Used: HTML, CSS, JavaScript, PHP, MySQL

CROWDFUNDING PRODUCT PAGE
Summary: A challenge to build out a crowdfunding product page and get it looking as close to a design given as possible. Requirements included: View the optimal layout depending on their device's screen size, see hover states for interactive elements, select which pledge to make, and see an updated pledged progress bar.
Tools Used: HTML, CSS, JavaScript
